The applicants are therefore advised to visit the website frequently, in their own interest (www.iiita.ac.in). In no case shall the Institute be responsible for non-receipt of the information by the applicants.

Charter

Welcome to Indian Institute of Information Technology ALLAHABAD

Mission

Indian Institute of Information Technology - Allahabad strives to become an Institute of excellence to train, create, and transform the domain of Information Technology and allied areas. It aims in developing trained human resource to be engaged in Research, Development, Industry/Corporate and Education, Knowledge creation in the areas of Information Technology. The Institute is committed to instill a scientific and research aptitude with an academic rigor and innovation aptitude among its members. It seeks to develop an interdisciplinary community with mix of diverse people, ideas and culture which will work towards serving the Nation and the World.

Owing to the fact that IT has come to play a pivot role in economics, business, social and comprehensively the nation's development, the institute teaches its students to live around the world of technology and solve forthcoming business problems using Information Technology.

- » To train and educate, at certificate, diploma, undergraduate and postgraduate levels, engineers of outstanding ability, who may become leaders in the IT industry and profession.
- » To carry out advanced research and development in leading edge technology areas in computer Hardware & Software, which can be useful on a comparatively long term basis.
- » To develop and promote national and international linkages by way of adjunct faculty, partnership in research, student exchange, credit transfer and joint degrees.
- » To work for the creation and development of resource databases, associated software and courseware for all important applications, so as to ensure future availability of newer software technologies for English, Hindi and other Indian languages.

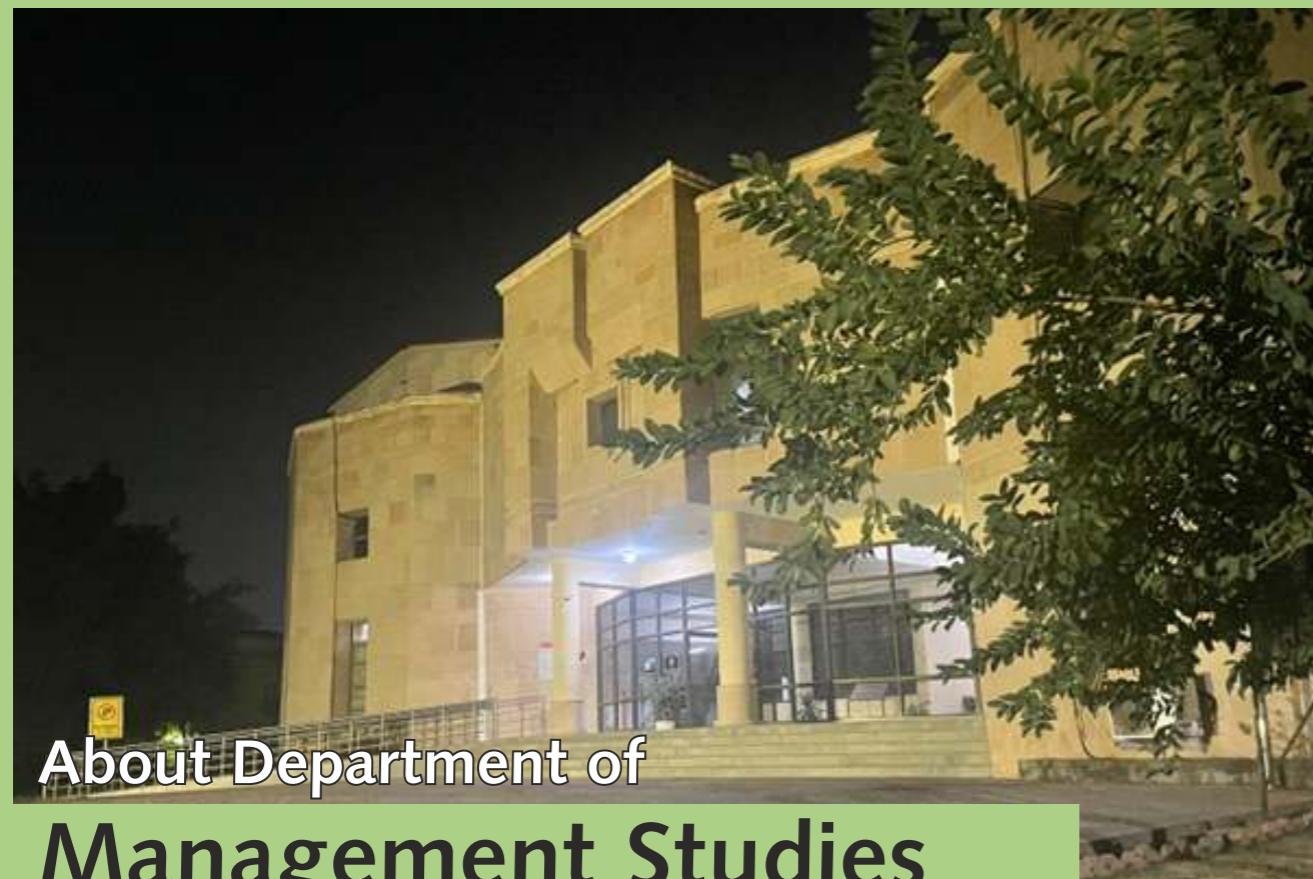

About IIITA

IIITA at a Glance

- The Indian Institute of Information Technology Allahabad (IIIT-A) was established in 1999, as a center of excellence in Information Technology and allied areas. The institute was conferred the "Deemed University" status by Govt. of India in the year 2000. IIITA is currently an Institute of National Importance established by Act of Parliament.
- The Institute has been conceived with the ambitious objectives of developing professional expertise and skilled manpower in Information Technology (IT) and related areas. As an apex nucleating institute in the area of IT, the establishment of IIIT-A, is a major step of Govt. of India towards strengthening the indigenous capability necessary for exploiting profitably and harnessing multi-dimensional facets of IT at all levels, and attaining expertise to enable the country to emerge as a leading player in the global arena.
- The beautiful 100 acre campus, situated at Deoghat, Jhalwa, designed meticulously on the Penrose Geometry pattern, is being further topped by fine landscaping to give an all round soothing effect to create a stimulating environment.
- The campus is envisaged to be a fully residential one, with all its faculty, staff and students housed in different pockets. All academic and residential areas are connected to the Institute network.

- IIIT-A has been ranked 12th in Outlook-Drshti Survey 2017 and 11th rank in India. Today Best Engineering Colleges 2017 rankings.
- In the 'QS University Rankings BRICS 2Q14', which ranks universities in the BRICS countries, namely, Brazil, Russia, India, China, and South Africa. In this ranking, IIIT Allahabad was ranked 1Q9, our ranking in India was 16.
- In India Today ranking, IIIT-A got the 25th rank in the list of India's top engineering institutes.
- In the Outlook ranking placed IIIT-A at the 17th position among India's Top 75 Engineering Colleges.
- IIITA ranks among top 100 colleges as per NIRF rankings 2022.

About Department of Management Studies

The Department of Management Studies came into existence in 2004 and was constituted with the philosophy of running and managing the programmes with a focus on management & technology.

Propelling academic excellence through innovative pedagogy of blended learning inculcating all round self-development by creativity, knowledge exchange, empowerment and enrichment of students and faculty members.

The department offers two programmes 2 Years Full Time MBA & Full Time Dual Degree MBA - Ph.D. which are the backbone to cater to the objective of the department for attaining academic excellence by horizontal & vertical growth

The strength of the department lies in the faculty who are having exposure to fields of Management and IT, belonging to various institutes of national importance and centers of excellence. Apart from having its regular faculty members, the Institute has also been very actively supported by experts from industry and academics. The alumni of the department are placed in leading consulting firms like McKinsey, BCG, E&Y, KPMG, Deloitte etc.

From the

HEAD OF DEPARTMENT

Management as a discipline has effectively endured turbulence of time and reflects newer competencies responding to newer challenges. Management evolution and learning has no way been isolated to these changes in the world of practice. We at IIIT-A in the Department of Management Studies for last two decades of existence have faced the similar music and duly resonate with the tunes of time.

It is good time to invite applications for the 20th batch of our MBA program.

The mere idea of fresh energy, thoughts and young probing minds joining us is very exciting.

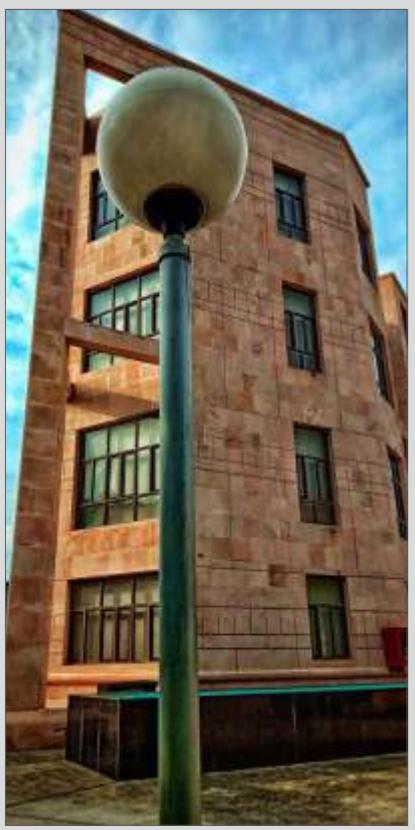

To engage such brilliance the curriculum, the infrastructure, pedagogy, innovative teaching and learning methods at the department will serve and nurture them aptly.

We at the department have state of the art Research labs, dedicated Management labs, Library, Placement & recreation facilities for promoting the Competitive environment and help the budding expatriates to explore & catapulte their skills.

Come, let's resonate success...!

Dr. Pragya Singh

Head of the Department
Management Studies, IIIT Allahabad

Why MBA

Curriculum Expertise

IIIT has been the torch bearer when it comes to IT education in the country. The curriculum is just one thing; IIITA has world-class pedagogy focusing on delivering IT excellence. It creates an educational experience that is relevant, enriching and unique, the one that will create innovators and entrepreneurs.

Research Approach

Being, India's premier research institutes in domain of IT, IIIT has been committed to provide new concepts, technology to the world and International quality research opportunity to the students. This sets them apart from other Technology managers as they get a chance to identify, define and solve problems in their areas of passion.

Culture

Culture binds the people together in a yarn of love. We, here at IIIT-A also believe in the same ideology. For a healthy and complete development and polishing of students, IIIT-A has a student driven culture, wherein student teams have the onus of conducting different cultural and social endeavours.

MBA educates people regarding the application and implementation of IT in the businesses.

- This course covers everything about the emerging IT trends and thus enables us to conceptualize and execute organizational planning in terms of IT infrastructure.
- MBA helps students to understand the maintenance of network, system, along with the business knowledge.
- It attempts to combine business areas with IT knowledge to create well rounded managers with tech efficiency.
- The learning pedagogy is to empower students to drive business transformation through innovative technology.

Classroom Teaching

Our classrooms are equipped with state-of-the-art infrastructure for a healthy learning environment. Our highly competent faculty involve in interactive classroom sessions. The classroom teaching is coupled with intense discussions on relevant managerial issues.

Presentations

Our mode of learning is majorly presentation based where every student has to present her/his views on assigned topics on a regular

basis. Every presentation is followed by a heavy round of questioning.

Case studies

Every course's theoretical insight is supported by relevant case studies' analysis where our students get to learn from business cases from around the world.

War room

Objective of the WAR ROOM is to enable the participants to develop vertical skills leading to scenario development and analysis, option evaluation, resource allocation and devising strategies and their

implementation. A war room is a meeting room for the purpose of discussing project management. The room is a place where our student teams discuss the development of a plan to specifically and successfully accomplish an assigned project. In addition, they may discuss the resources needed such as man power, the budget, the timeline and possible challenges to be faced and what can be done about the pitfalls which may occur. In the room, they also talk about the execution of the project, the step by step process of accomplishing their goal. Finally, the completion of the project is discussed in the war room.

SUMMER TRAINING & PLACEMENTS

Our students have found positions in the following companies for their 2-month summer projects. Large numbers of companies are showing keen interest in taking 6 months project with our students, which will further show the way to their final placements. Students had more than one placement opportunity to choose from and hence could decide on their desired profiles and compensations.

Recruiters

Infrastructure

Business Intelligence Lab

Business Intelligence has been developed in the department keeping in consideration of student's interest and academic research in the developing field of Business Intelligence and Web Analytics. The lab houses facilities for students and researchers to work on projects and application covering issues related to data mining, business intelligence, web analytics using:

1. Big Data
2. Hadoop and other similar application

The impact would enable developing proficiency among students and also creation of new knowledge through collaboration among faculties and students of different streams of management, technology and allied sectors.

Strategy War Room

Objective of the WAR ROOM is to enable the participants to develop vertical skills leading to scenario development and analysis, option evaluation, resource allocation and devising strategies and their implementation. A war room is a meeting room for the purpose of discussing project management. The room is a place where our student teams discuss the development of a plan to specifically and successfully accomplish an assigned project. In addition, they may discuss the resources needed such as man power, the budget, the timeline and possible challenges to be faced and what can be done about the pitfalls which may occur. In the room, they also talk about the execution of the project, the step by step process of accomplishing their goal. Finally, the completion of the project is discussed in the war room.

LIBRARY

The IIIT-A central library has a repository of more than 50000 books concerning myriad disciplines of study such as pure and computer science, information technology, information security and management. It can accommodate up to 150 students at a time. The e-media section of the library has 50 computer systems and is largely meant for facilitating e-reading amongst the students. A collection of more than 2000 CDs equipped with drivers, tools and recorded lectures aim at enhancing the conceptual understanding of the students on various subjects and topics.

Labs

The institute takes pride in its laboratory facilities which cover all the major aspects of Electronics & Communication and Information Technology. The labs impart sound practical skills to students with numerous projects being researched in them. Students have round the clock access to each of these labs.

Management Clinic

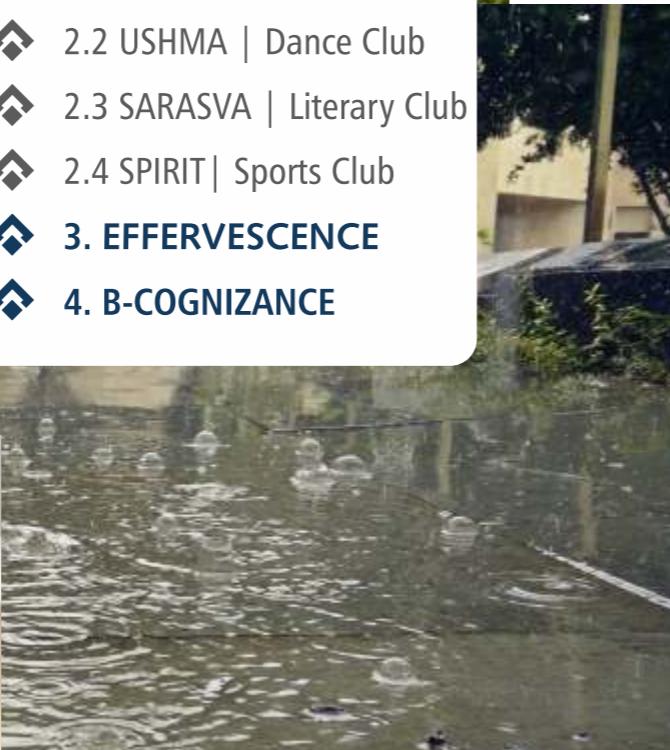

The department is ready to launch 'Management Clinic' as an outreach initiative to help and support Micro & Small Business :

1. To create efficient and effective enterprises through 'Consulting' & 'Process Management'.
2. Introducing lean and agile methods / technologies for BPM (Business Process Management)

Beyond Academics

- ◆ 1. GYMKHANA
- ◆ 2. CLUBS
- ◆ 2.1 VIRTUOSI | Music Club
- ◆ 2.2 USHMA | Dance Club
- ◆ 2.3 SARASVA | Literary Club
- ◆ 2.4 SPIRIT | Sports Club
- ◆ 3. EFFERVESCENCE
- ◆ 4. B-COGNIZANCE

1. GYMKHANA

Democracy is not something to be criticized, politics is not something from which we will shun ourselves away. The main motive of the formation of the Student's Gymkhana is to make the student community of IIIT-Allahabad a self-dependent organization. After a long wait, the opportunity of airing our voices is knocking at our doors. So let us embrace this project as a family and let's program and debug our way through this complex algorithm called "Gymkhana".

2. CLUBS

- 2.1 VIRTUOSI | Music Club
- 2.2 USHMA | Dance Club
- 2.3 SARASVA | Literary Club
- 2.4 SPIRIT | Sports Club

3. EFFERVESCENCE

EFFERVESCENCE is a techno-cultural extravaganza spanning 4 days of high octane action. The first two days comprise of the online competitions which act as a magical wand for those who sense a curious feeling of Effervescence, but are out of its physical reach.

Participants from IIT's, IIM's, NIT's and IIIT have been seen experiencing these intense events and win laurels. The other three days it's all on-campus events which comprise of technical events in the morning and to hold the night fever we have a full platter of dance, dramatics, music and literary competitions. The concluding night of the Effervescence is always the most anticipated and illustrious event which has seen bands like Bombay Vikings, Euphoria, Silk Route and Strings performing live.

4. B-COGNIZANCE

B-Cognizance, an E-magazine of Department of Management Studies IIIT-A, with a range of topics under different sections. The current issue has come up with all existing sections of the previous issue but with a new flair of looks. This issue is new not only in terms of looks but its contents have also been enriched by providing links to business videos which will surely be thought provoking to students community. This issue also provides useful resources which have discussions over variety of topics related to business and self-improvement to students.
